

Downloading Skype on an iPad or iPhone

Skype is a **free video call** service.

You can also **turn off the video** and use it like a **phone**.

You can **use Skype** to:

- Make a **video call**
- Share a **presentation**
- Share **picture** or **documents**.

You will need:

- iPad or iPhone
- Your device needs a **working microphone** and **camera**
- An **internet** connection or **mobile data**

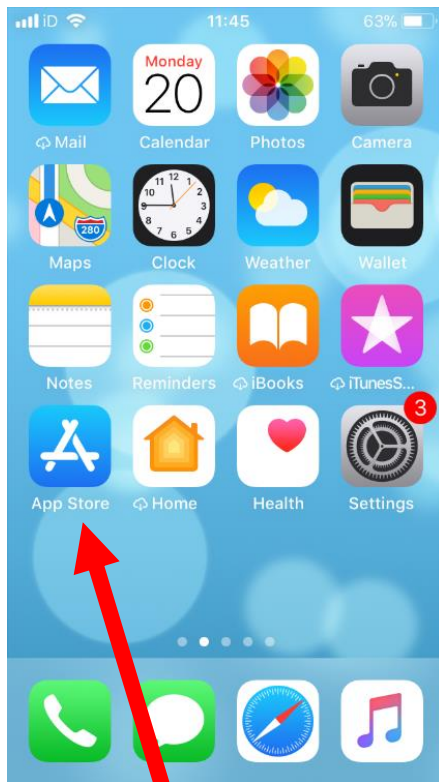

Download Skype on your iPad or iPhone

Step 1: Open the Apple Store

Look for an **icon** like this: 

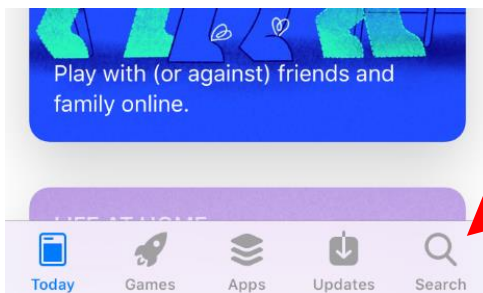

To **open** the Apple Store, **tap** on the icon.

Step 2: Search for the **app** you want to download

At the **bottom of the screen** is the **search** button.

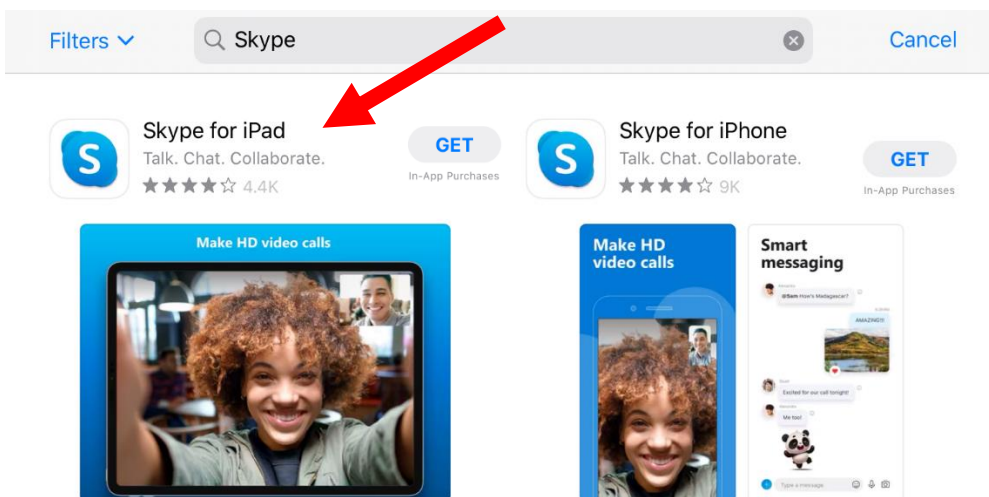

Tap the  **magnifying glass** icon to **search**.

Write 'Skype'.

Step 3: Select the app from the search results

Tap the app you want to **open**.

There might be many **apps** with **similar names**.

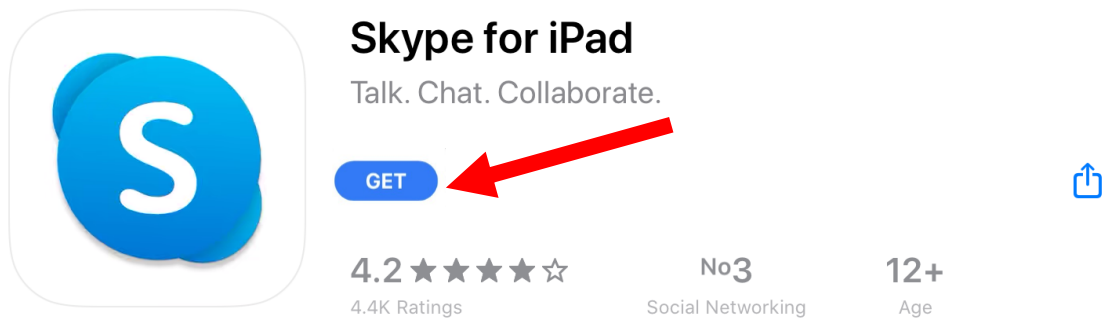

If you tap the **wrong app**, go back to the search results.

To go back **tap** the **arrow** in the **top left corner**.

Step 4: Install the app

Skype is **free** to download.

Tap the blue 'GET' button: 

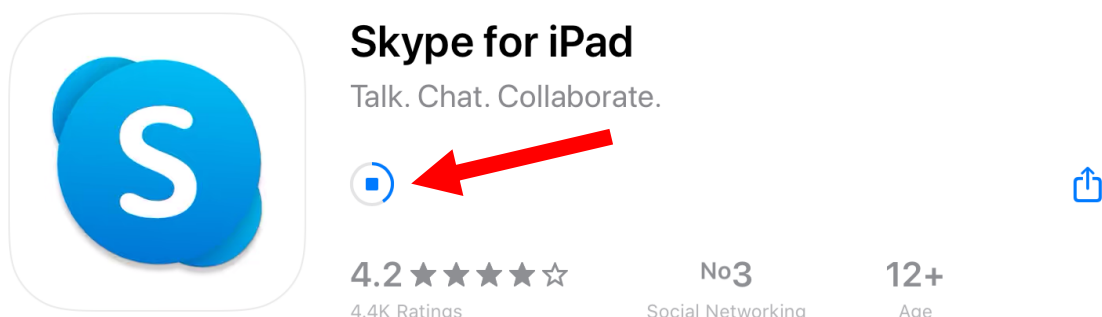

The device will ask you to **confirm**.

The app will begin **installing**.

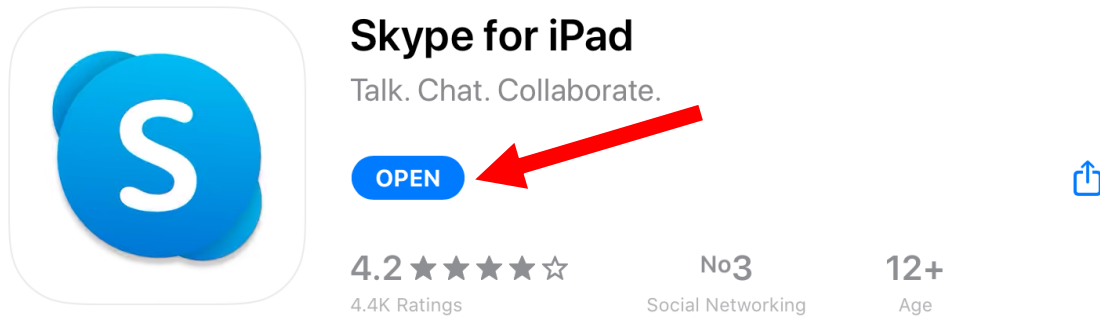

There will be a **small status circle** to the **right** of the app.

This shows the app **downloading**.

Step 5: Open the app

When the **app** has **downloaded**, tap the blue '**OPEN**' button.

You can now **begin** using the app.
